

Jenkins Installation on Windows (Step-by-Step Guide)

Step 1: Install Java (JDK)

Download and install Java JDK (version 11 or later).

Set JAVA_HOME environment variable.

Step 2: Download Jenkins

Go to Jenkins official website and download the Windows (.msi) installer.

Step 3: Run Installer

Double-click the downloaded .msi file.

Follow installation wizard (Next → Install → Finish).

Step 4: Start Jenkins

Jenkins will start automatically as a Windows service.

Open browser and go to: <http://localhost:8080>

Step 5: Unlock Jenkins

Find initial admin password at:

C:\Program Files\Jenkins\secrets\initialAdminPassword

Paste it in browser.

Step 6: Install Plugins

Choose 'Install suggested plugins'.

Step 7: Create Admin User

Enter username, password, email.

Step 8: Jenkins Ready

Dashboard will open. Jenkins is ready to use.
